This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Immunohistochemical analysis of paraffinembedded human breast cancer tissue slide using 10417-1-AP (GATA3 antibody) at dilution of 1:200 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

MCF-7 cells were subjected to SDS PAGE followed by western blot with 10417-1-AP (GATA3 antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours.
