			Validated Application:		
			Blocking peptide		
				De constituit en	Chinaina
			Reconstitution	Reconstitution: Reconstitute at 0.25 µg/µl in 200 µl sterile water for short-term	Shipping: The product is shipped at ambient temperature.
			and Storage	storage.	Upon receipt, store it immediately at the
				After reconstitution with sterile water, if glycerol has no effect	recommended temperature (see below).
				on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability	
	and Storage for more details).				
	If a different concentration is needed for your purposes please				
adjust the reconstitution volume as required (please note: the					
ion concentration of the final solution will vary according to the volume used).					
Note: Centrifuge vial before opening. When reconstituting,					
gently pipet and wash down the sides of the vial to ensure full					
recovery of the protein into solution.					
Stability and Storage	Store for up to 12 months at -20°C to -80°C as lyophilized				
,	powder.				
Storage of	Short Term Storage:				
Reconstituted Protein	Store at 2-8°C for (1-2 weeks).				
Reconstituted Protein	Long Term Storage: Aliquot and store at -20°C to -80°C for up to 3 months,				
	reconstitution with sterile water and addition of an equal				
	volume of glycerol. Avoid repeat freeze-thaw cycles.
