FOR IN VITRO RESEARCH USE ONLY. NOT FOR USE IN HUMANS OR ANIMALS. C100rf116 Fusion Protein

Basic Information	Catalog Number:	Peptide Sequence:		
	Ag14341 Form: Available lyophilized Species: human	MASKGLQDLKQQVEGTAQEAVSAAGAAAQQVVD QATEAGQKAMDQLAKTTQETIDKTANQASDTFSGIG KKFGLLK (1-76 aa encoded by BC004471)		
			Expression Source: e coli-derived, PGEX-4T, with N-terminal GST.	
			Biological Activity: Not tested	
			Endotoxin Level: Please contact the lab for more information Validated Application: Blocking peptide	
				Reconstitution and Storage
	After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details).			
	If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used).			
	Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.			
	Stability and Storage		Store for up to 12 months at -20°C to -80°C as lyophilized powder.	
Storage of	Short Term Storage:			
Reconstituted Protein	Store at 2-8°C for (1-2 weeks). Long Term Storage:			
	Aliquot and store at -20°C to -80°C for up to 3 months,			
	reconstitution with sterile water and addition of an equal volume of glycerol. Avoid repeat freeze-thaw cycles.			
Selected Validation Data
