COMMD8 Fusion Protein

Ag18973 UNRIQUPAELGPQLHMIGGCGAMPYCPDETCQ Form: Available lyophilized Species: Species: human Expression Source: e col: -derived, PET28a, with N-terminal 6*His. Biological Activity: Biological Activity: Not tested Press constitution: Reconstitution: Reconstitution: Biological Activity: Not tested Endotoxin Level: Press contact the lab for more information Validated Application: Biological Activity: Not tested Anter reconstitution with sterile water, if glycerol has no effect The product is shipped at ambient tempera on subsequer texperiments, it is recommended to ad an equal volume of glycerol for long-tem storage (see Stability and Storage for more details). If a different concentration is needed for your purpose please adjust the reconstitution with sterile water, if glycerol has no effect incomended temperature (see below). Note: Centrifuge vial before opening. When reconstituting gently pipes and wash down hes sides of the vial to ensure full recommended temperature (see below). Storage of Reconstituted Protein Shor Term Storage: Stor age of Reconstitution with sterile water and addition of an equal volume of glycerol. Avoid repast freez-thew cycles.	Basic Information	Catalog Number:	Peptide Sequence:
Available typphilized NSLHQETIMICCVESRAGEN(ALSER)/VISSAG Species: human NSLHQETIMICCVESRAGEN(ALSER)/VISSAG DVQVALSSDMALBPR/LSHLDV/ERGEN Expression Source: e cd/derived, PET28, with N-terminal 6*His. Biological Activity: Not tested NSLHQETIMICCVESRAMP(LSHLDV/ERGEN Expression Source: e cd/derived, PET28, with N-terminal 6*His. Biological Activity: Not tested NSLHQETIMICCVESRAMP(LSHLDV/ERGEN Expression Source: e cd/derived, PET28, with N-terminal 6*His. Biological Activity: Not tested NSLHQETIMICCVESRAMP(LSHLDV/ERGEN Expression Source: e cd/derived, PET28, with N-terminal 6*His. Biological Activity: Not tested NSLHQETIMICCVESRAMP(LSHLDV/ERGEN Expression Source: e cd/derived, PET28, with N-terminal 6*His. Biological Activity: Not tested NSLHQETIMICCVESRAMP(LSHLDV/ERGEN Expression Source: e cd/derived, PET28, with N-terminal 6*His. Biological Activity: Not tested NSLHQETIMICCVESRAMP(LSHLDV/ERGEN Expression Source: e cd/derived, PET28, with N-terminal 6*His. Biological Activity: Not tested NSLHQETIMICCVESRAMP(LSHLDV/ERGEN Expression Source: e cd/derived, PET28, with N-terminal 6*His. Biological Activity: Note: Constitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to ad an e qual volume of glycerol for longicem storage (see Stability and Storage for more details). Note: Centrifuge vial before opening: When reconstituting genty pipet and wash down the side of the vial to ensure full recovery of the protein into solution. Storage of Storage of Reconstituted Protein Stor for up to 12 months at -20°C to -80°C as lyophilized powder. Storage Storage of Constituted Protein Storage: Storage of Constituted Protein Storage is 20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal volume of	basic information	Ag18973	LWRLQKLPAELGPQLLHKIIDGICGRAYPVYQDYHTV
Affective type intervel Species: Species: Species: Summa DWQVRALSSDRIALRAPPILSHIDWENCEX Expression Source: e coll-defived, PT28a, with N-terminal 6*His. DWQVRALSSDRIALRAPPILSHIDWENCEX EMSRELQUIQUSEANKV/UC (9-182 as encoded by BC008371) Reconstitution and Storage Reconstitution: Reconstitute at 0.25 µg/µl in 200 µl sterile water for short-term storage. After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more defails). If a different concentration is needed for your purposes please adjust the roconstitution. Note: Centrifyge Vial before opening. When reconstituting, genty piper ad wash down the sides of the vial to ensure full recovery of the protein into solution. Shipping: The product is shipped at ambient tempera Upon neeling, store it immediately at the recommended temperature (see below). Stability and Storage Store for up to 12 months at -20°C to -80°C as lyophilized powder. Short Term Storage: Store at 2.8°C for (1-2 weeks). Long Term Storage: Store at 2.8°C for (1-2 weeks). Long Term Storage: Aliquot and store at -20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal volume of glycerol. Avoid repeat freeze-thaw cycles.		Form:	WESEEWMHVLEDIAKFFKAIVGKNLPDEEIFQQLNQ
Species: EMSREELQNUQSIEAAMKVVQL human Expression Source: e cd/i-derived, PET28a, with N-terminal 6'His. Biological Activity: Not tested Endotoxin Level: Please contact the lab for more information Validated Application: Blocking Level: Blocking Activity: Not tested Endotoxin Level: The product is shipped at ambient temperature storage. Reconstitution Reconstitution with sterile water for short-term storage. Shipping: The product is shipped at ambient temperature (see below). After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details). The product is shipped at ambient temperature (see below). Stability and Storage Store for up to 12 months at -20°C to -80°C as lyophilized powder. Don concentration is needed for your purposes please adjust the reconstitution with sterile water and addition of an equal volume as required (please note: the ion concentration of the risk store at 2.8°C for (1-2 weeks). Short Tem Storage: Storage of Reconstituted Protein Short Ferm Storage: Storage of for 12 weeks). Higuya and store at 2.8°C for (1-2 weeks). Long of the store at 2.8°C for (1-2 weeks). Long of term Storage: Storage of form or effect for the water and addition of an equal volume of glycerol for the yourd is there		Available lyophilized	NSLHQETIMKCVKSRKDEIKQALSREIVAISSAQLQDF
human (9-182 aa encoded by BC008371) Expression Source: e. coli-derived, PET28a, with N-terminal 6*His. Biological Activity: Not tested Endotoxin Level: Please contact the lab for more information Validated Application: Biocking peptide Reconstitution Reconstitution: Reconstitution: Reconstitution: Reconstitution: Reconstitution: If a different concentration is needed for your purposes please adjust the reconstitution solution. Shipping: The product is shipped at ambient temperators are quired (please note: the ion concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration is needed for your purposes please adjust the reconstitution. Note: Centrifue vial before opening. When reconstituting. gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution. Stability and Storage Storage of gover for up to 12 months at -20°C to -80°C as lyophilized powder. Storage of Reconstituted Protein Short Term Storage: Aliquot and store at -20°C to -80°C for up to 3 months, reconstitution with sterile water and addition of an equal would of an equal would with sterile water and addition of an equal would of aligner and addition of an equal would of an equal would with sterile water and addition of an equal would of an equal would with sterile water and addition of an equal would of giverol.
