				on subsequent experiments, it is recommended to add an	
	equal volume of glycerol for long-term storage (see Stability and Storage for more details).				
	If a different concentration is needed for your purposes please				
adjust the reconstitution volume as required (please note: the					
ion concentration of the final solution will vary according to					
the volume used). Note: Centrifuge vial before opening. When reconstituting,					
gently pipet and wash down the sides of the vial to ensure full					
recovery of the protein into solution.
