Anticorps Polyclonal de lapin anti-MAP1B

Numéro de catalogue:**CL488-21633** Phare

Informations de base

Numéro de catalogue:	Numéro d'acquisition GenBank:	Méthode de purification:
CL488-21633	BC141853	Purification par affinité contre l'antigène
Taille:	Identification du gène (NCBI):	Excitation/Emission maxima wavelengths:
100ul , Concentration: 1000 µg/ml by Nanodrop;	4131	493 nm / 522 nm
Hôte:	Nom complet:	
Lapin	microtubule-associated protein 1B	
Isotype:	MW calculé	
IgG	2468 aa, 271 kDa	
Immunogen Catalog Number:	MW observés:	
AG16255	320 kDa	

Applications

Applications testées:

FC (Intra)

Spécificité de l'espèce:

Humain, souris

Informations générales

Microtubule-associated protein 1B (MAP1B) is a cytoskeleton protein which can promote microtubule assembly. Previous reports have suggested that this protein is closely involved in neuronal development based on its extensive expression in the developing brain and moderate in mature neurons. Gene disruption or knockout studies of the MAP1B gene led to a delayed development of the nervous system in mice. It includes the N-terminal heavy chain and a C-terminal light chain. The MAP1B heavy chain has a microtubule-stabilization effect, and contains an actin-binding site that may play a role in the crosslinking of actin and microtubules, a function that may be important in neurite elongation. Various isoforms around 300-350 kDa of MAP1B can be observed due to the differences in phosphorylation state. (10704485)

Stockage

Stockage:

Stocker à -20 °C. Éviter toute exposition à la lumière. Stable pendant un an après l'expédition.

Tampon de stockage:

PBS avec glycérol à 50 %, Proclin300 à 0,05 % et BSA à 0,5 %, pH 7,3.

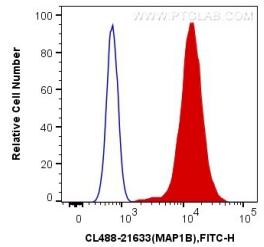

L'aliquotage n'est pas nécessaire pour le stockage à -20°C

*** Les 20ul contiennent 0,1% de BSA.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Données de validation sélectionnées

1X10⁶ SH-SY5Y cells were intracellularly stained with 0.4 ug CoralLite® Plus 488 Anti-Human MAP1B (CL488-21633) (red), or 0.4 ug Control Antibody. Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C).
