Protein A Monoclonal antibody, PBS Only

Catalog Number:66945-1-PBS   **1 Publications**

Proteintech®
Antibodies | ELISA kits | Proteins
www.ptglab.com

Basic Information

Catalog Number:
66945-1-PBS

Size:
100ug , Concentration: 1mg/ml by Nanodrop;

Source:
Mouse

Isotype:
IgG2a

GenBank Accession Number:
EU695225

GeneID (NCBI):

Full Name:

Purification Method:
Protein G purification

CloneNo.:
1G6A6

Applications

Tested Applications:
WB, Indirect ELISA

Cited Applications:
WB

Species Specificity:
staphylococcus aureus

Cited Species:
yeast

Background Information

Protein A is a surface protein of S.aureus which binds IgG molecules by their Fc region (PMID: 4163007). Engineered Protein A has been widely used in antibody purification due to its Fc binding property. However, trace of protein A might be leaked from purification resin thus causes contamination of final products. Antibody against Protein A or ELISA kits for Protein A could be used to evaluate leaking level of Protein A from resin. Protein A should be deactivated (e.g. boiling in 5-10% tween-20) before testing.

Notable Publications

Author	Pubmed ID	Journal	Application
Siyu Fan	39913206	Proc Natl Acad Sci U S A	WB

Storage

Storage:
Store at -80℃.
Storage Buffer:
PBS only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.
Commercial Protein A and negative samples (human plasma, HeLa cells, rat liver, mouse brain) were subjected to SDS-PAGE followed by western blot with 66945-1-Ig (Protein A antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 66945-1-PBS in a different storage buffer formulation.
Commercial Protein A was deactivated and lysised followed by SDS-PAGE and then blot with 66945-1-Ig (Protein A antibody) at dilution of 1:10000 and isotype control antibody 66360-1-Ig at 1:2000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 66945-1-PBS in a different storage buffer formulation.
