

For Research Use Only

RAP2A Monoclonal antibody, PBS Only

Catalog Number: 68368-1-PBS

Basic Information

Catalog Number: 68368-1-PBS	GenBank Accession Number: BC041333	Purification Method: Protein G purification
Size: 100ug, Concentration: 1mg/ml by Nanodrop;	GeneID (NCBI): 5911	CloneNo.: 1F6F3
Source: Mouse	UNIPROT ID: P10114	
Isotype: IgG1	Full Name: RAP2A, member of RAS oncogene family	
Immunogen Catalog Number: AG4979	Calculated MW: 183 aa, 21 kDa	
	Observed MW: 21 kDa	

Applications

Tested Applications:
WB, IF/ICC, Indirect ELISA

Species Specificity:
human, mouse, rat, pig, rabbit

Background Information

Ras-related protein Rap-2a (RAP2A) is also named as RbBP-30, and belongs to the small GTPase superfamily and Ras family. RAP2A is small GTP-binding protein which cycles between a GDP-bound inactive and a GTP-bound active form. In its active form, RAP2A can interact with and regulates several effectors including MAP4K4, MINK1 and TNIK. a Nedd4-1/Rap2A/TNIK signaling pathway regulates neurite growth and arborization in mammalian neurons (PMID:20159449). Early research indicated that RAP2A is mainly located in the Golgi apparatus of mammalian cells. RAP2A functions in several cascade signals to regulate biological behaviors such as cytoskeletal rearrangement, cell growth and apoptosis, and cell adhesion and migration (PMID:34018090, PMID:16246175, PMID: 16540189).

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS Only

W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 68368-1-Ig (RAP2A antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours. The membrane was stripped and reblotted with HRP-conjugated GAPDH Monoclonal antibody (HRP-60004) as loading control. This data was developed using the same antibody clone with 68368-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (-20°C Methanol) fixed MCF-7 cells using RAP2A antibody (68368-1-Ig, Clone: 1F6F3) at dilution of 1:400 and Multi-rAb CoraLite® Plus 488-Goat Anti-Mouse Recombinant Secondary Antibody (H+L) (RGAM002). This data was developed using the same antibody clone with 68368-1-PBS in a different storage buffer formulation.
