

For Research Use Only

ATG5 Recombinant antibody, PBS Only

Catalog Number: 81803-1-PBS

Featured Product

Basic Information

Catalog Number: 81803-1-PBS	GenBank Accession Number: BC002699	Purification Method: Protein A purification
Size: 100ug , Concentration: 1 mg/ml by Nanodrop;	GeneID (NCBI): 9474	CloneNo.: 5M5
Source: Rabbit	UNIPROT ID: Q9H1Y0	
Isotype: IgG	Full Name: ATG5 autophagy related 5 homolog (S. cerevisiae)	
Immunogen Catalog Number: AG0214	Calculated MW: 32 kDa	
	Observed MW: 50-55 kDa	

Applications

Tested Applications:
WB, IP, IHC, Indirect ELISA

Species Specificity:
Human, mouse , rat

Background Information

ATG5, also named as APG5L and ASP, belongs to the ATG5 family. It is required for autophagy. It plays an important role in the apoptotic process, possibly within the modified cytoskeleton. Its expression is a relatively late event in the apoptotic process, occurring downstream of caspase activity. Autophagy is a catabolic process for the autophagosomic-lysosomal degradation of bulk cytoplasmic contents. Formation of the autophagosome involves a ubiquitin-like conjugation system in which Atg12 is covalently bound to Atg5 and targeted to autophagosome vesicles. It mediates autophagosome-independent host protection. This antibody is raised against 28-275 amino acids of human ATG5. It can recognize the ATG5-ATG12 complex (55 kDa) which can be truncated and generate a 40-45 kDa band.

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

WB result of ATG5 antibody (81803-1-RR; 1:6000; room temperature for 1.5 hours) with wild-type and ATG5 knockout HeLa cells. This data was developed using the same antibody clone with 81803-1-PBS in a different storage buffer formulation.

Various lysates were subjected to SDS PAGE followed by western blot with 81803-1-RR (ATG5 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 81803-1-PBS in a different storage buffer formulation.

IP result of anti-ATG5 (IP:81803-1-RR, 4ug; Detection:81803-1-RR 1:2000) with HeLa cells lysate 1280 ug. This data was developed using the same antibody clone with 81803-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded human ovary tumor tissue slide using 81803-1-RR (ATG5 antibody) at dilution of 1:1000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 81803-1-PBS in a different storage buffer formulation.
