## PARK7/DJ-1 Recombinant antibody

Catalog Number:82913-3-RR

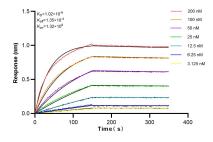

Basic Information			
Basic Information	Catalog Number: 82913-3-RR	GenBank Accession Number: BC008188	Purification Method: Protein A purfication
	Size:	GenelD (NCBI):	CloneNo.:
	100ul , Concentration: 1000 ug/ml by Nanodrop;	11315	230124B3
		UNIPROT ID:	
	Source:	Q99497	
	Rabbit	Full Name:	
	Isotype:	Parkinson disease (autosomal	
	IgG	recessive, early onset) 7	
	Immunogen Catalog Number: AG2287	Calculated MW: 189 aa, 20 kDa	
		Observed MW:	
		20 kDa	
Applications	Tested Applications: ELISA		
	Species Specificity:		
	human		
Background Information	PARK7, also named as DJ 1, belongs to death. PARK7 plays a role in regulatir		s cells against oxidative stress and cell
	and SLC25A27 in dopaminergic neuro induced by calcium entry into the neu- and protects cells against hydrogen p transforming activity. It may function terminal peptide and subsequent acti	ons of the substantia nigra pars comp urons via L-type channels during pace eroxide-induced cell death. PARK7 ha a as a redox-sensitive chaperone. It's ivation of protease activity in respon protein stability and leads to increas	acta and attenuates the oxidative stress making. It eliminates hydrogen peroxide as cell-growth promoting activity and precursor undergoes a cleavage of a C- se to oxidative stress. The amino acid ed degradation. The predicted MW of this

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

Biolayer interferometry (BLL) kinetic assays of 82913-3-RR against Human PARK7/DJ-1 were performed. The affinity constant is 1.02 nM.
