

For Research Use Only

APOL1 Recombinant antibody, PBS Only

Catalog Number: 83770-5-PBS

Basic Information

Catalog Number: 83770-5-PBS	GenBank Accession Number: BC017331	Purification Method: Protein A purification
Size: 100ug , Concentration: 1 mg/ml by Nanodrop;	GeneID (NCBI): 8542	CloneNo.: 240814D11
Source: Rabbit	UNIPROT ID: O14791	
Isotype: IgG	Full Name: apolipoprotein L, 1	
Immunogen Catalog Number: AG2016	Calculated MW: 44 kDa	
	Observed MW: 39 kDa	

Applications

Tested Applications:
WB, IF/ICC, ELISA

Species Specificity:
human

Background Information

Human apolipo-protein L1 (APOL1) is a minor component of plasma high density lipoprotein (HDL) particles, acting as an interacting protein of apolipoprotein A1 (ApoA1). The human ApoL protein family was thought to be predominantly involved in lipid transport and metabolism. APOL1 is also involved in host innate immunity against Trypanosoma parasites. Once activated, APOL1 can lyse the parasite and protect human from infection. Genetic variants in APOL1 gene, which are found in African ancestry with high frequency, associate with chronic kidney disease, like focal segmental glomerulosclerosis (FSGS), HIV-associated nephropathy (HIVAN), and hypertensive nephropathy. APOL1 share structural and functional similarities with proteins of the Bcl-2 family and may has roles in apoptosis and autophagy. It is notable that APOL1 exists only in human and a few other primate species, and mouse does not express an APOL1 orthologue.

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Immunofluorescent analysis of (-20°C Ethanol) fixed HepG2 cells using APOL1 antibody (83770-5-RR, Clone: 240814D11) at dilution of 1:1000 and CoraLite@488-Conjugated Goat Anti-Rabbit IgG(H+L) (SA00013-2). This data was developed using the same antibody clone with 83770-5-PBS in a different storage buffer formulation.

Various lysates were subjected to SDS PAGE followed by western blot with 83770-5-RR (APOL1 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 83770-5-PBS in a different storage buffer formulation.

Bi-layer interferometry (BLI) kinetic assays of 83770-5-RR against Human APOL1 were performed. The affinity constant is below 1 pM.
