## For Research Use Only

## CoraLite® Plus 405 Anti-Mouse IL-17A Rabbit Recombinant Antibody

Catalog Number: CL405-98005

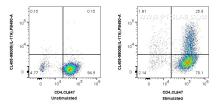

Basic Information	Catalog Number: CL405-98005	GenBank Accession Number: NM-010552	Purification Method: Protein A purification
	Size:	GenelD (NCBI):	CloneNo.:
	100ug , 500 µg/ml Source: Rabbit Isotype: IgG	16171 UNIPROT ID: Q62386 Full Name: interleukin 17A Calculated MW: 17 kDa	230038C7 Excitation/Emission maxima wavelengths: 399 nm / 422 nm
Applications	Tested Applications: FC (Intra) Species Specificity: mouse		
Background Information	IL-17A, also named as IL-17, is a proinflammatory cytokine. IL-17, synthesized only by memory T cells and natural killer cells, has pleiotropic effects, mainly in the recruitment and activation of neutrophils. This cytokine regulates the activities of NF-kappaB and mitogen-activated protein kinases. This cytokine can stimulate the expression of IL6 and cyclooxygenase-2 (PTGS2/COX-2), as well as enhance the production of nitric oxide (NO). High levels of this cytokine are associated with several chronic inflammatory diseases including rheumatoid arthritis, psoriasis and multiple sclerosis. The IL-17 receptor is a type I transmembrane protein, that is widely expressed on epithelial cells, fibroblasts, B and T cells, and monocytic cells. In psoriatic skin lesions, both Th17 cells and their downstream effector molecules, e.g. IL-17 and IL-22, are highly increased.		
Storage	Storage: Store at 2-8°C. Avoid exposure Storage Buffer: PBS with 0.09% sodium azide.	to light. Stable for one year after shipme	nt.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

1x10<sup>^6</sup> unstimulated or PMA, Ionomycin and Brefeldin A stimulated C57BL/6 Th17-polarized splenocytes were intracellularly stained with 0.25 ug CoraLite® Plus 405 Anti-Mouse IL-17A Rabbit Recombinant Antibody (CL405-98005, Clone: 230038C7) and CoraLite® Plus 647 Anti-Mouse CD4. Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C).
