For Research Use Only

FITC Plus Anti-Human IL-4 Rabbit Recombinant Antibody

Catalog Number: FITC-98138

Basic Information

Catalog Number:

GenBank Accession Number: BC070123

Purification Method: Protein A purification

FITC-98138 Size:

GeneID (NCBI):

100tests, 5 ul/test

CloneNo.: 240794E11

Source:

UNIPROT ID:

Excitation/Emission maxima

Rabbit Isotype: P05112 Full Name: wavelengths: 495 nm / 524 nm

interleukin 4 Calculated MW:

Immunogen Catalog Number: EG0104

153 aa, 17 kDa

Applications

Tested Applications:

Positive Controls:

FC (Intra)

FC (Intra): PMA, Ionomycin and Brefeldin A treated

Species Specificity:

human

human PBMCs,

Background Information

IL-4 is a cytokine produced by CD4+T cells in response to helminthes and other extracellular parasites. It promotes the proliferation and differentiation of antigen presenting cells. IL-4 also plays a pivotal role in antibody isotype switching and stimulates the production of IgE. This cytokine has been applied in the treatment of autoimmune disorder like multiple myeloma, cancer, psoriasis, and arthritis. IL-4 has also been extensively applied to inhibit $detrimental\ effect\ of\ Th1.\ It\ may\ promote\ the\ growth\ of\ epithelial\ tumors\ by\ mediating\ increased\ proliferation\ and$ survival.

Storage

Storage:

Store at 2-8°C. Avoid exposure to light. Stable for one year after shipment.

PBS with 0.09% sodium azide and 0.5% BSA, pH7.3

Selected Validation Data

1x10^6 untreated or PMA, Ionomycin and Brefeldin A treated human PBMCs were intracellularly stained with 5 ul FITC Plus Anti-Human IL-4 Rabbit RecAb (FITC-98138, Clone: 240794£11) and APC Anti-Human CD3 (OKT3) Mouse IgG2a Recombinant Antibody (APC-65569, Clone: OKT3). Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C).
