Unconjugated rabbit recombinant monoclonal antibody pair in PBS only (BSA and azide free) storage concentration of 1 mg/mL, ready for conjugation. Created using Proteintech's proprietary in-house rectection technology. Recombinant production enables unrivalled batch-to-batch consistency, easy scale-up, as security of supply.	combinant
Matched antibody pairs are designed for use in a variety of assays and platforms that require matche pairs.	
Antibody use should be optimized for each application and assay.	d antibody
