For Research Use Only

## PE Anti-Rat IL-2 Rabbit Recombinant Antibody

Catalog Number: PE-98046

**Basic Information** 

Catalog Number:

PE-98046

Size: 100ug , 200  $\mu g/ml$ 

Source: Rabbit

Isotype:

GenBank Accession Number:

NM\_053836 GeneID (NCBI):

116562 **UNIPROT ID:** P17108

Full Name: interleukin 2

Calculated MW:

18 kDa

**Purification Method:** 

Protein A purification

CloneNo.: 240264C7

Excitation/Emission maxima wavelengths:

496 nm, 565 nm / 578 nm

**Applications** 

**Tested Applications:** 

FC (Intra)

Species Specificity:

rat

**Background Information** 

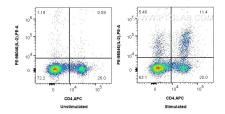

Interleukin-2 (IL-2) is a four-helix bundle, type I cytokine that functions as a growth factor for a wide range of leukocytes. In the immune system, IL-2 is essential for immune homeostasis, normal T regulatory cell function, and self-tolerance. It regulates immune cell homeostasis and has been used to treat a range of disorders including cancer and autoimmune disease. IL-2 signals through heterodimerization of the IL-2R $\beta$  and IL-2R $\gamma$  receptor subunits (PMID: 25992858, 24907378, 15034008, 17981641).

Storage

Store at 2-8°C. Avoid exposure to light. Stable for one year after shipment.

PBS with 0.09% sodium azide and 0.5% BSA.

## Selected Validation Data

1x10^6 untreated or PMA, Ionomycin and Brefeldin A treated rat splenocytes were intracellularly stained with 0.1 ug PE Anti-Rat IL-2 Rabbit Recombinant Antibody (PE-98046, Clone: 240264C7). Cells were co-stained with APC Anti-Rat CD4. Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C).
