Human T Cell Basics Panel

Catalog Number: PK30007

www.ptglab.com

Description

T lymphocytes are immune cells that respond to foreign antigens by secreting cytokines (CD8+ Cytotoxic T cells) and coordinating the immune response (CD4+ Helper T cells). This panel is designed for the investigation of T lymphocytes (CD3 positive) and for the further separation of the T lymphocyte population into Helper T Lymphocyte (CD4 positive) and Cytotoxic T Lymphocyte (CD8 positive) subpopulations. The PE channel is left open.
